

# BREEAM INTERNATIONAL NEW CONSTRUCTION

Version 6.0

The carpets (see full list on page 2) can contribute to credits in BREEAM International New Construction as follows:

BREEAM category	Products contribution to the category
<b>Hea 02</b> Indoor air quality	Most carpets fulfil the requirements for VOC emissions. Please find Indoor Air Comfort Gold emission certificate for a specific carpet at <a href="http://www.egecarpets.com/product-specifications">www.egecarpets.com/product-specifications</a>
<b>Hea 05</b> Acoustic performance	All carpets contribute to good acoustics. Please find acoustic insulation from impact noise and acoustical absorption for a specific carpet tile at <a href="http://www.egecarpets.com/product-specifications">www.egecarpets.com/product-specifications</a>
<b>Mat 01</b> Life cycle impacts	Environmental Product Declarations (EPDs) according to ISO 14025 and EN 15804 are available for some of the carpets. Please find all our EPDs at <a href="http://www.egecarpets.com/technical-info/environmental-product-declaration-epd">www.egecarpets.com/technical-info/environmental-product-declaration-epd</a>
<b>Mat 03</b> Responsible sourcing of construction products	Most of the carpets are partly produced from recycled materials. Please find recycled content for a specific carpet at <a href="http://www.egecarpets.com/product-specifications">www.egecarpets.com/product-specifications</a>
<b>Mat 05</b> Designing for durability and resilience	Most carpets fulfil the highest standard for resilience, i.e. Class 33 (commercial use - heavy) according to EN 1307
<b>Wst 01</b> Construction waste management	Ege Carpets A/S can contribute to a plan for waste management on the construction site and for take back and handling of used carpets
